

# Mailbox Repairs or Replacement

[Brookstone II - Acworth, GA - Addresses of Distinction \(mymailboxorder.com\)](http://mymailboxorder.com)

## BROOKSTONE II - ACWORTH, GA

### Welcome to the Brookstone II community mailbox page!

This page features the official mailbox for the Brookstone II community, the Addresses of Distinction Lakeside System with T2 mailbox, Charleston bracket, princeton cap and 2" Gold Vinyl numbers. This page is designed for you to replace your existing mailbox with one of our Lakeside System. Installation includes the removal and disposal of the old mailbox system.

April 1 - June 30, 2022

\$503.99

**\*Price includes installation. Price does not include tax.**

**\*\*After promotional period ALL prices are subject to change**

#### NEED PARTS?

If you require components for your existing mailbox system, please contact our support team by phone at (770) 436-6198. You will be asked to email a picture of your damaged system to determine which replacement parts are needed.

#### FREQUENTLY ASKED QUESTIONS

##### DOES SOMEONE NEED TO BE HOME DURING INSTALLATION?

No one is required to be home during the installation process. If you have any special requests, please notify us beforehand by emailing [support@aodmailboxes.com](mailto:support@aodmailboxes.com).

##### WHEN WILL MY MAILBOX BE INSTALLED?

Our typical lead time for the installation is 7-10 business days weather permitting.

##### SHOULD I BE CONCERNED ABOUT THE LANDSCAPING SURROUNDING MY MAILBOX?

If there are flowers, vines, or other shrubbery that you would like to preserve, we recommend that you remove those plants prior to the installation and replant them afterwards. Although our installers will do their best to protect your landscaping, sometimes the removal of flowers, vines, or other shrubbery is necessary in order to properly install the mailbox and we cannot guarantee that any foliage or landscaping in the area of the installation will be protected. As well, we do not offer shrub removal services due to the threat that roots can pose to utility lines.

##### DO YOU INSTALL WITH CONCRETE?

All mailboxes installed by Addresses of Distinction are installed using concrete. We warranty all

installations for a period of one year. When your mailbox is installed, please wait 24 hours before applying pressure to the post, as it takes some time for the concrete to fully cure.

### **DO YOU OFFER A WARRANTY?**

Yes. We warranty all of our products against manufacturing or workmanship defects for one year. [Click this link for more info.](#)

### **WHY REPLACE YOUR MAILBOX?**

- Not only will new mailboxes increase the overall curb appeal of the community, but a survey of real estate agents have shown that a standardized mailbox design can increase the value of your home by up to 7% when combined with the new street signs. The mailbox is one of the first impressions of the property. A clean and classy look will instill confidence in an agent to market a property at a higher value, as well as give a good first impression to potential buyers. The standardization also puts an expectation on each homeowner to provide adequate upkeep of their mailbox which in turn will protect home values within the community.

- The new mailboxes will be very low maintenance. They are constructed with rust free aluminum components with the exception of the box which will be made from a stainless steel. All components have a rich black powder coated finish using the same quality of powder that companies like John Deere, Caterpillar, and other industrial tractor companies use. This coating seals the product and keeps water and other elements out. This means all that is required is a simple cleaning once or twice a year to keep your investment looking great.

### **ADDITIONAL QUESTIONS?**

Please contact our support team by phone at (770) 436-6198, email at [support@aodmailboxes.com](mailto:support@aodmailboxes.com), or text at (770) 334-9302 with any questions or concerns.
